

ROUND POND

Turner Twp., Androscoggin County
U.S.G.S. Lewiston, Maine

Fishes

Yellow perch	Golden shiner
Chain pickerel	White sucker
Minnnows	Hornpout (bullhead)

Physical Characteristics

Area - 12 acres	Temperatures
	Surface - 70°F
Maximum depth - 39 feet	38 feet - 49°F

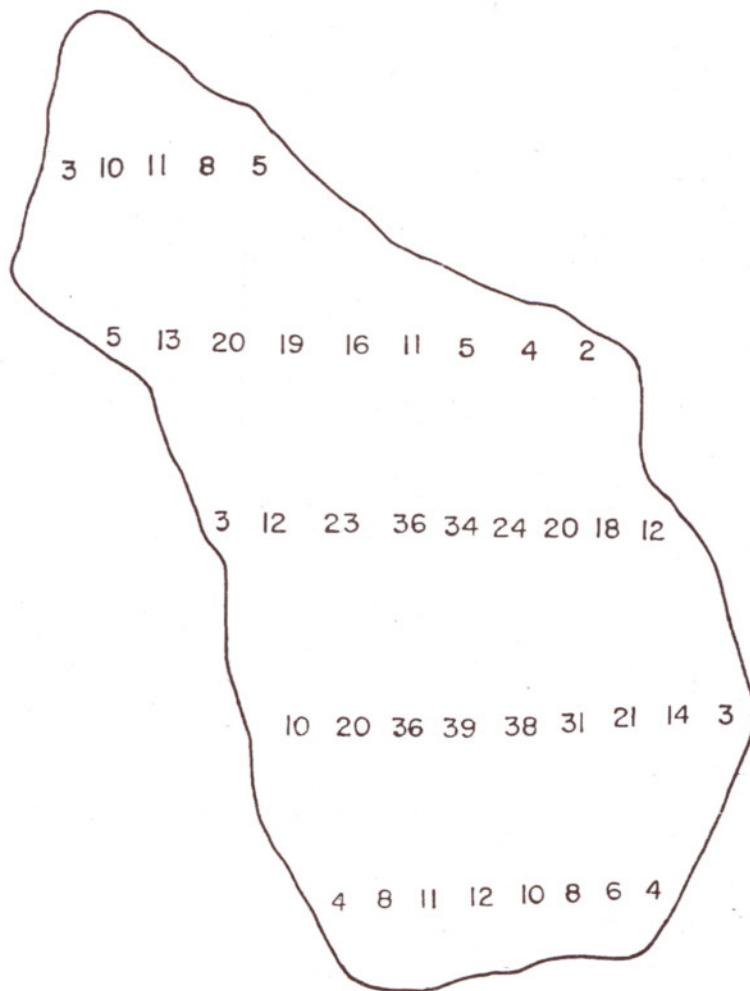

Principal fisheries: Chain pickerel, hornpout

Round Pond is a small kettle pond located a few miles north of the Lewiston/Auburn metropolitan area. Fishery management here currently emphasizes warmwater gamefishes. October fishing for warmwater fish is permitted at Round Pond. The pond is also open to ice fishing.

It is possible that Round Pond could be managed for brook trout. This could be achieved by chemically reclaiming the pond to remove the competitory warmwater fishes. In coming years, Department fishery biologists will re-assess environmental and access conditions at Round Pond. Recommendations will be made as to whether a reclamation would be feasible.
